Summary

I am a final year student majoring in Informatics Engineering with a focus on Front-end development. Skilled in HTML, CSS, JavaScript and various front-end frameworks. Proficient in creating visually appealing and user-friendly websites, and have a strong understanding of web design principles, responsive design, and web development best practices. Seeking internship opportunities to gain hands-on experience and contribute to real-world projects while continuing to develop my skills and knowledge in the field of front-end development.
